

2018 Clery Act “Crime Reporting”; Campus Security Authorities.

Campus Security Authorities

Summary: The Clery Act requires that in addition to campus law enforcement, staff designated as Campus Security Authorities provide statistics for this report.

What is a Campus Security Authority?

The Clery Act requires Gordon-Conwell Theological Seminary to provide an annual safety and security report. In addition to input from the Department of Public Safety, Campus Safety and local law enforcement, certain staff positions are designated as Campus Security Authorities for the purpose of providing information for this report. Campus Security Authorities are usually found in departments responsible for, but not limited to, student and campus activities, safety/security, discipline, housing, human resources or judicial proceedings. This designation also includes any individual who has been specified by Gordon-Conwell Theological Seminary to receive and report offenses.

Campus Security Authorities are responsible for reporting the number of crimes and incidents as described in the Clery Act that occur in their department to the Department of Public Safety, Campus Safety at Gordon-Conwell Theological Seminary. These numbers are then included in the federally mandated Clery Report, which is distributed every year by October 1st.
